24.4 The Client acknowledges that accounts that contain Financial Instruments or funds belonging to the Client may be subject to the law of a jurisdiction other than that of an EU member state and the rights of the Client relating to those Financial Instruments or funds may differ accordingly.

24.5 The Client acknowledges that a depository may have a security interest or lien over, or right of set-off in relation to Financial Instruments or funds belonging to the Client.

24.8 The Client declares that he has read, understands and without any reservation accepts the following:

(1) Information regarding past returns of a Financial Instrument does not guarantee the future returns. The use of historic data does not constitute necessarily a safe forecast as to the corresponding future return of the Financial Instruments to which such data refer.

If the Client does not exercise such a right to acquire shares or other securities during the exercise period of the Warrants, upon expiry, the Warrants lapse and have no value whatsoever.

(4) The value of the Warrants is directly affected by the price of the share or security which may be acquired when the warrant is exercised. For example, a minor change in the price of the share or security which shall be acquired may result in a major change in the price of the Warrant. Consequently, the value of the Warrant is highly volatile.

(5) The Client should not purchase Warrants unless and until he is prepared to lose all funds invested and any commissions and other expenses incurred by him.

(6) When a Financial Instrument is negotiated in a currency other than the currency of the country of residence of the Client, any changes in the exchange rates may have a negative effect on its value.

(7) Any Financial Instrument in foreign markets may entail risks different than the ordinary risks in the market at the Client's country of residence.

24.9 The nature and extent of the risks mentioned above vary from country to country and depend on the Financial Instrument on which the investment shall be effected. In general, the risk factor is affected inter alia by:

(1) The type of the intended investment.

- (2) The manner in which the specific investment is effected or the specific Financial Instrument is offered or negotiated or sold.
- (3) The needs and profile of the investor.
- (4) The market in which the Financial Instruments are negotiated and whether such market is regulated or not.
- (5) The political risk in the country of the relevant Market or the country of the issuer.
- (6) The clearing and settlement system applicable to the relevant Market.
- (7) The place of registration or business, the capitalisation and the main business of the issuer.
- (8) The risk of insolvency of the issuer.
- (9) The complexity of the transaction.
- (10) Whether the transaction is connected with margin payment or the granting of credit or deposit of collateral or whether it is a leveraged transaction.
- (11) The counter-party risk.
